“The SIGA Heritage Reproduction Reclaimed Slates provide considerable time saving and ease of laying to achieve a very authentic appearance.”

Roockley Roofing Contractors

**PRODUCT SHOWN:** SIGA Heritage Reproduction Reclaimed Grey Slate in conjunction with TIL-R Concrete Ridge Tiles and TIL-R Universal Dry Fix Ridge Kit.

## SIGA Heritage Reproduction Reclaimed Slate

Reproduction Reclaimed Slate is the latest addition to our SIGA Heritage range. Each slate is specifically manufactured by hand to provide an authentic roof finish, giving the appearance of a weathered, natural slate.

The glass fibre cement construction provides a light yet durable roofing material. An easy to lay format and a range of compatible products, including ridge tiles and dry fix ridge kits, create an extremely versatile and cost effective alternative to natural slate.

Each individual slate is hand crafted using moulds taken from natural slate originals. As with natural slate, shades may vary with no two slates ever the same. This, combined with the surface detail and hand colouring, ensures a truly authentic roof finish.

Available in two colours, Grey and Purple, the slates are constructed from Glass Reinforced Concrete (GRC) producing a strong and durable slate that weighs only 30kgm<sup>2</sup>.

Reproduction Reclaimed Slate is proud to form part of SIG Roofing's ONE Warranty – a pitched roof product warranty that supports all the key elements required in the build-up of the roof. The products performance is covered for 15 years under one single package warranty, providing a warranty that is easy to understand and even easier to use. ONE Warranty is cost effective and simple, giving you peace of mind backed by a FTSE 250 company.

## Why use SIGA Heritage Reproduction Reclaimed Slate?

We understand that sourcing a regular supply of quality reclaimed slate can be a challenge at times, with many different factors to consider, such as continuity, longevity and high wastage. With SIGA Heritage Reproduction Reclaimed Slate however, there is an alternative that couples the look and feel of a product that has been installed many years ago together with the peace of mind that the product is guaranteed for 25 years, having undergone strict industry testing.

A hand crafted product, SIGA Heritage slates create the look of a gracefully weathered roof with a consistent appearance. Furthermore, SIGA Heritage Reproduction Reclaimed Slates are available in any quantity and require no sorting or grading, significantly reducing labour costs.
