# Timber

#### Fully certified and approved

We have a range of quality graded roofing batten in different lengths and thicknesses that are BS5534:2014 compliant, recognised by controlling bodies, local authorities and home warranty providers such as the NHBC.

Ensuring that you have the very best material and total peace of mind, our supply partners' Premium Gold Roof Battens are underpinned by a 60-year product warranty (speak to your branch for more information).

### Dry Fix Ridge Kits

# Make sure you are BS5534: 2014 compliant

Available nationwide at SIG Roofing branches, the TIL-R Dry Fix Ridge Kit is a universal solution, suitable for use with most conventional ridge tiles, and can be used on hips in conjunction with hip trays.

The TIL-R Dry Fix Ridge kit is lightweight, safe and simple to install, ventilated to BS5534 requirements. The minimal number of components provide secure fixing against the weather, with easy alignment and a discreet appearance.

TILER

### Ventilation

Solutions for all of your ventilation needs

SIG Roofing supply a full range of ventilation products from outlets, to slate vents, breather membranes and eaves ventilation.

We offer a range of simple and effective solutions to provide air paths into the roof space. Our ranges allow ventilation through the ridge, hips, verges and weep tiles, as well as the fascia, eaves and soffits.

Choice and Variety in Clay Tiles

#### Insulation

# The leading provider of specialist flat and pitched roofing insulation

Choosing the right insulation for your project can be quite a task; with a vast choice of product ranges available, legislative and building requirements and new products constantly being introduced. So visit one of our SIG Roofing branches for advice and guidance to help you choose the right product for the right job and all the ancillaries for a professional solution.

With our proven nationwide logistics network and vast supply chain management experience, we ensure you get the right products, in the right place, in the right quantities, and at the right time.

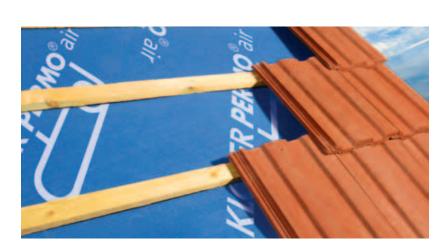

#### **Breather Membranes**

# Breather membranes for every application

SIG Roofing have a full range of breather membranes, available in a variety of colours and suited for use in both vented and non-vented, cold or warm pitched roofs.

Resistant to penetration by water, they still allow the roof to breathe through the passage of water vapour. They are excellent as fully supported or unsupported underlays in tiles and slated pitched roofs.
