

A man with short grey hair and a beard, wearing a light blue button-down shirt, is smiling while sitting at a desk in a warehouse. He is typing on a laptop. The background is filled with stacks of cardboard boxes, some of which are labeled with the SIG logo. A large diagonal graphic element, consisting of a grey triangle and a red triangle, cuts across the bottom right of the image.

# **SUPPORTING** BUILDERS MERCHANTS WITH ROOFING PRODUCTS

WHATEVER YOUR CUSTOMERS REQUIRE,  
WE CAN HELP YOU SUPPLY IT.

ROOFING

WE'VE GOT IT COVERED

# WORKING WITH SIG ROOFING

When your business needs a dedicated supplier for roofing products, technical advice and support, you need a distributor with a service bespoke to your needs.

## SALES SUPPORT TEAM

When you contact our Sales Support Team they will;

- Produce quotes and place orders
- Help with technical enquiries
- Keep you up to date at all times and follow through on orders
- Give you an excellent service

## ESTIMATION

We provide professional, accurate and reliable estimating;

- Full Take-offs
- From drawings or dimensions
- Detailed with all listed components
- Based on manufacturer specifications
- Merchant branded estimates

Your local SIG Roofing team are both passionate and knowledgeable.

We're here to help you say **YES** to your customers through;

- Estimating, sample and matching services
- Specialist in pitched, flat and industrial roofing products
- Over 250,000 roofing product SKUs
- Excellent trading relationships with all the leading manufacturers
- Over 180 delivery vehicles ensuring reliable deliveries
- Expert advice and support
- Depots nationwide with roofing products always available and always in stock
- Dedicated central sales office with estimating and direct order taking

# MERCHANT BENEFITS

Whatever your customers require,  
SIG Roofing can help you supply it.

We have a rich depth of knowledge  
and strong relationships with key  
manufacturers, giving you  
unrivalled access to the roofing  
supplies market.

## Pitched Roofing

- Natural Slate
- Clay & Concrete Tiles
- Fibre Cement & Synthetic Slates
- Metal Roofing
- Shingles
- Underlays & Membranes
- Batten & Timber
- Lead & Lead Replacement
- Ridges, Hips, Valleys & Bonnets
- Ventilation
- Insulation
- Chimney Pots & Finials
- Roof Windows

# ROOF COVERINGS

Whether it's concrete, fibre cement or even fibre glass, man made tiles are a durable alternative to traditional materials offering excellent quality and value for money.

Concrete tiles are the most widely used and readily available roof covering. Strong and designed to perform in even the most demanding British weather conditions they are a cost-effective solution. Our wide range of concrete tiles and accessories come in a variety of profiles, colours and sizes.

We supply images from all the leading manufacturers including;

## HERITAGE REPRODUCTION STONE

Hand crafted to give an authentic roofscape, offering detailed moulding, a choice of colours and a range of sizes designed as alternatives to traditional regional products.

### COTSWAY

Matching the versatility and beauty of Cotswold stone roofing slates.

### CHARNWOOD

20% lighter but equal in colour, texture and performance to East Midlands Swithland slate roofing.

### RUTLAND

Another East Midlands favourite, Collyweston stone roofing slates are matched in colour, texture and performance.

## HERITAGE RECLAIMED SLATE

A reproduction roof slate providing all the look and feel of weathered natural reclaimed slate but with a 25-year guarantee and no shortage of supply.

A hand-crafted, hand coloured slate using moulds from natural slate originals, available in two colours, in any quantity, requiring no sorting or grading. The glass fibre cement construction provides a light yet durable roofing slate material that weighs only 30kg/m².

## FIBRE CEMENT SLATES

Smooth Square Edge fibre cement roofing slates are an ideal option if looking for a cost-effective alternative to natural slates.

Available in blue-black colour, conforming to the strongest class, class B in accordance with BS EN 492:2012+A1:2016, with a 10 year colour and 30 year structural stability guarantee.

We also supply a range of leading manufacturer Fibre Cement products and accessories to complete the roof.

## NATURAL SLATE CONSISTENT QUALITY, CONSISTENT SUPPLY

As the largest distributor of natural slate in the UK, quality is at the forefront of everything we do. We source our slates direct from the quarries, allowing us to guarantee the selection and continuous supply to you.

### CONSISTENT SUPPLY

We carefully manage every single step of the journey, from the quarry to your premises. This monitoring and careful selection ensures that the slate we supply you is not only aesthetically beautiful and strong, but that you can also offer your customers consistency and traceability that's second to none.

The range provides high quality ranges with industry leading 30 to 75 year warranties, suitable for both new and refurbishment projects.

Our natural slate range benefits from:

- **Consistency of quality**
- **Longevity of supply**
- **Best value**
- **Choice and variety**
- **Traceability**
- **On site quality control**
- **Rapid and efficient logistics**

### CONSISTENT QUALITY

- **All slates are tested to BS EN12326-1:2014 and test results are readily available**
- **All slates are CE Marked**
- **Every crate of slate is marked with EN test results**

The range includes a wide variety of W1 ( $\leq 0,6\%$ ), T1, S1 slates to suit NHBC requirements.

### EXCELLENCE

The finest Slates from the most reputable quarries are selected to provide a long-lasting, roof with minimal grading and sorting. They all come with a 75 year Warranty.

### COMMERCIAL

A range of good quality slates with a 30 year warranty, ideal for new build projects, refurbishment and the volume developer market, complying with NHBS requirements.

### CLASSIC

Affordable natural roofing slates of good overall quality that are ideal for budget conscious projects.

SNOWDONIA NATIONAL PARK AUTHORITY

ESTIMATING QUOTATION ORDERING DELIVERY

# FLAT ROOFING

With the largest choice of flat roofing products on the market, you can be sure of exceptional value and quality.

The systems we supply range from those at the cutting edge of modern roofing to the more traditional techniques.

Our supply portfolio gives you access to a large range of fully tested and compatible materials, products and components - all available from the leading manufacturers.

In addition to your key flat roofing materials, we also stock the ancillaries your customers need to finish off projects.

Our commitment is to ensure you can say **YES** to your customers.

**Reduced stock investment**

**Reductions in slow moving and damaged stock**

**Quick, reliable and timely deliveries**

**Full 'just in time' stock availability**

**Improvement in sales, profitability and cash flow**

ESTIMATING QUOTATION ORDERING DELIVERY

# FLAT ROOFING SYSTEMS

When working on flat roofing there are a range of product systems to suit every type, scale and finish. Even if your customer prefers a certain method of working, there are several options available.

## TORCH ON FELTS

Our ranges include Cap Sheets, Underlays and Vapour Control Layers. With new membranes providing increased resistance to aging and weathering they continue to be suitable for all roof sizes, easy to install and low in cost. They can be the ideal choice for tailoring the build up to the project criteria.

## EPDM

Our EPDM roofing range includes a choice of membrane thicknesses, adhesives, trims and drainage accessories.

Depending on your requirements we can supply stock in either whole rolls or cut to the customers size.

With BroofT4 fire rating and +35 year BBA life expectancy making this the ideal choice for refurbishments and new build projects.

## LIQUID WATERPROOFING

Our liquid waterproofing systems are simple to use straight from the bucket. Applied by brush, roller or spray they are ideal for flame-free application where access is limited or where large amounts of detailing are required.

## GRP SYSTEMS

GRP (Glass Reinforced Plastic) is a high performance, proven technology found on everything from boats and water tanks to ponds and pools, keeping water in as well as out. Made in the UK, it's an environmentally safe composite and a great modern alternative to bitumen, felt and lead - perfect for creating flat roofs that are extremely strong, completely waterproof and long lasting.

## REPAIR COMPOUNDS

Our Roof Repair System is a low odour, low VOC, solvent based acrylic resin system for use when waterproofing various roofing systems such as flat and pitched roofs, bituminous felt, asphalt, gutters, concrete, brickwork, metal surface.

## PAINTS & PRIMERS

A range of easy to apply paints and primers, including:

- Felt Roof Adhesive
- Bitumen Primers
- Black Bitumen Paint
- Aluminium Paint
- All Weather Roof Coat

ESTIMATING QUOTATION ORDERING DELIVERY

# FLAT ROOFING ANCILLARIES

In addition to flat roof waterproofing options, we also stock the ancillaries needed to finish off your customers projects.

## INSULATION

Ensuring your customer choses the right insulation can be a minefield, with a vast choice of product ranges available, legislative and building requirements and new products constantly being introduced. We can advise you on the most appropriate ranges to stock.

## STRUCTURAL DECKING

OSB 3 is highly engineered, moisture resistant and specifically designed for the most demanding roofing applications. Perfect for cold or warm deck flat roofs it's easy to work with, simple to fix and cheaper than structural plywood.

## ROOF DOMES, LANTERNS, ROOFLIGHTS & ACCESS HATCHES

Adding light to a flat roof has become the norm for most projects. Quality specification modular glass rooflights are available to order in a wide range of sizes, supplied as fixed, or manually or electrically opening for ventilation. We also stock dome shape modular rooflights. Access hatches give easier access to flat roof spaces.

## VENTS & OUTLETS

While the requirements for roof drainage will vary depending on the type of roof, our vents and outlets ensure a watertight connection between the water/damp proofing membrane and the drainage pipework.

## TRIMS

Roof edge trims and termination bars tidy up waterproofing membranes on flat roofs and are available in a range of sizes in either GRP or aluminium. They're an alternative to lead flashing and extremely durable and economical.

## FLASHINGS

Lead is the traditional material for this and is still one of the most popular methods of sealing the joint between walls and flat roofs.

Lead substitutes have become increasingly common and, depending on the life expectancy and budget of the job you are working on, they might be just what you need.

ESTIMATING QUOTATION ORDERING DELIVERY

# INDUSTRIAL ROOFING

We only work with, and supply quality materials from, leading manufacturers in the industry.

That way you can have total confidence in the products we supply.

Our unrivalled position in the industry means we can source many products in the marketplace, supplying either individual components or whole solutions. With our streamlined management approach, we simplify your buying process and co-ordinate deliveries, including any specific off-load requirements your customer may have.

Our commitment is to ensure you can say **YES** to your customers.

**Reduced stock investment**

**Reductions in slow moving and damaged stock**

**Quick, reliable and timely deliveries**

**Full 'just in time' stock availability**

**Improvement in sales, profitability and cash flow**

ESTIMATING QUOTATION ORDERING DELIVERY

# INDUSTRIAL ROOFING

Working with our Industrial Roofing Specialist Centre means you draw on an extensive product range, a mature logistics network, impartial and informed technical support.

We can help you with;

- **Current legislation, standards and codes of practice**
- **Condensation risk & U-values**
- **Exposure & local climate requirements**
- **Roof loading & working safety**
- **Load out & supply chain management**
- **Component & product colour matching across systems and manufacturers**

Whatever challenges and opportunities present themselves, we have the breadth of range and agility of service that means we deliver to you what you need, when you need it.

## SINGLE SKIN METAL PROFILED SHEETING

Our comprehensive range of Single Skin Metal Sheet is suitable for almost all roofing and cladding applications. We can also source more unusual or bespoke products on request.

## BUILT UP SYSTEMS

Your customers can also use single skin sheets together with liner panels and insulation to create a built up insulated roof/cladding system. We supply the whole range of products you need.

## COMPOSITE PANELS

Composite roof and wall systems offer significant advantages over conventional site assembled systems, being fast, single-fix installation with reliable thermal performance through the continuity of the insulation and minimal air leakage.

## TILE SUPPORT SYSTEMS

Slate and tile support systems provide a safe, weather tight, fast-build platform for the installation of roof tiles or slates with superior thermal performance and low air leakage. Rapid roof installation ensures a weather tight building, accelerating the start and completion of internal fit out.

## CORRUGATED GALVANISED SHEETING

"Crinkly tin" provides a perfect, cost effective solution for agricultural buildings.

## FIBRE CEMENT PROFILE SHEETING

We offer an unrivalled product portfolio of fibre cement sheeting, accessories and build up materials. We supply the full range of Marley Eternit profiled fibre cement sheeting in profile 3 and 6R.

In addition to your key industrial roofing materials, we also stock the ancillaries products needed to complete projects.

- **GRP Rooflights**
- **Purlins**
- **Flashings, Gutters & Fabrications**
- **Decking Profiles**

## MATERIAL CALCULATIONS

We can help calculate material requirements from plans or dimensions your customers supply.

## PROFILE MATCHING SERVICE

We will help you identify ANY industrial roofing profile. If we can't find an existing product we can arrange the manufacture to your customers specifications.

## COLOUR MATCHING

Even if a mix of products have been used from different manufacturers, we help you match your products to an accurate colour finish, where possible.

## FLASHING DETAILS

All flashings are purpose made to your specification and are compatible with coated steel and galvanised sheeting. Ask for our 'Flashing Details' calculation sheet to complete all the dimensions and angles you need.
